Hiring Manager
Innovative Financial Solutions
Lansing, MI

Dear Hiring Manager,

I am thrilled to apply for the Treasury Financial Analyst Intern position at Innovative Financial Solutions, a role that perfectly aligns with my growing expertise and substantial experience in cash management, as well as my fervent desire to contribute effectively to your teams while delivering immediate value for your operations.

Your company's commitment to excellent service in cash operations, especially surrounding ATM, Credit and Debit Card, and ACH transactions, resonates with my work ethic, following analytical methodologies that not only enhance efficiency but also foster collaborative spirit among diverse departments.

Reflecting on my journey, I am a detail-oriented financial analyst with just over two years of experience in cash management. At FinTech Innovations, I undertook data analyses that not only supported cash operational processes but also improved reporting accuracy, showcasing my ability to synthesize data into actionable insights that add value and streamline operations.

At Greenwood Financial Group, during my time as a Financial Analysis Intern, I tackled various finance-related tasks, analyzing transactional data for ATM and card services, which significantly minimized operational risks while actively engaging in discussions with team leads to ensure project alignment and effective communication.

Balancing my academic pursuits alongside my responsibilities demands a measure of independence and effective time management, skills I pride myself on, as evidenced in my ongoing pursuit of a Bachelor's degree in Finance from the University of Michigan, graduating in 2025, while adapting flexibly to my role's evolving needs.

Thank you for considering my application.

Sincerely,

Madelyn Rocha
