STRENGTHS

- Empathetic Research Skills**
Conduct thorough user research by empathizing with users, resulting in deeper insights that refine design strategies.
- Collaborative Spirit**
Foster connections with interdisciplinary peers, leading collaborative efforts that consistently improve project results.
- Critical Problem Solver**
Address complex design challenges effectively, transforming obstacles into opportunities for growth and improvement.
- Strong Communicator**
Articulate design concepts clearly both visually and verbally, gaining stakeholder confidence and collaboration.
- Adaptable Mindset**
Embrace shifting priorities enthusiastically, maintaining focus on delivering quality results even amid changes.

SUMMARY

Dynamic UX Designer with over 2 years' experience creating engaging user experiences for digital platforms. Specializing in translating customer insights into effective wireframes, prototypes, and design recommendations using tools like Figma, Framer, and Sketch. Strong communication abilities facilitate collaboration across product, engineering, and design teams, enhancing user satisfaction while meeting business goals. Proven track record of identifying usability issues, providing actionable solutions, and implementing improvements that contribute to optimized ecommerce strategies. Excited to bring innovative solutions and a passion for user-centric design to a new team.

EXPERIENCE

UX Designer

Creative Tech Group 📅 March 2024 - Present 📍 Naperville, IL

Focus on designing user-centric interfaces and improving overall user engagement. Collaboration with engineering and product management teams to transition concepts into functional designs. Drive innovations in ecommerce strategies.

- Conduct qualitative research and utilize feedback to inform design decisions, achieving significant improvements in user engagement.
- Develop integrated wireframes and interactive prototypes via Figma, ensuring designs resonate with user needs and business objectives.
- Enhance product functionality through close collaboration with product managers and engineers, leading to a more seamless user experience.
- Effectively communicate design rationale to stakeholders, fostering cross-team support and buy-in.
- Implement user flow enhancements based on usability test results, resulting in reduced user drop-off rates.
- Keep comprehensive documentation regarding design processes, interactions, and usability considerations for future reference.

Junior UX Designer

Design Innovations LLC 📅 June 2022 - February 2024 📍 Schaumburg, IL

Assisted senior designers in various stages of the design process, from conducting user research to building prototypes. Focused on enhancing usability for web and mobile applications.

- Supported user research efforts, analyzing data to shape strategic design choices that elevated user satisfaction ratings.
- Created prototypes and detailed user flows contributing to an impactful redesign of the company's mobile application.
- Worked alongside teams to present design ideas and gather constructive feedback, aligning designs with business needs.
- Identified and resolved usability challenges within existing designs, benefitting overall user experience.
- Documented design findings and methodologies to assist team performance in future projects.
- Participated actively in design critiques, encouraging innovation and creative problem-solving among peers.

LEADERSHIP & AWARDS

- Recognized as 'Innovator of the Month' for introducing user-centered design practices that significantly improved project outcomes.
- Awarded top honors for excellence in collaborative team projects during academic tenure at University of Illinois at Chicago.
