SUMMARY

Proactive Virtual Clinical Assistant with over two years in ophthalmic settings, providing robust support for patient documentation and examinations. Expertise lies in transcribing medical histories and facilitating initial screenings, enabling a smooth experience for multiple patients per hour. Skilled at utilizing electronic medical record systems and various testing techniques such as visual acuity and tonometry during assessments. Collaborative team member committed to maintaining confidentiality and compliance, while continuously seeking opportunities for improvement. Eager to leverage experiences in optimizing patient care and enhancing practice efficiency.

EXPERIENCE

Virtual Clinical Assistant

June 2025 - Present

Visionary Eye Care

Chicago, IL

In this role, supported physicians in capturing comprehensive patient data while ensuring swift documentation processes. Managed detailed history taking and created in-depth records, aiding in efficient decision-making for upcoming treatments.

- Assisted physicians by documenting thorough patient histories, promoting accurate records for ongoing treatment planning.
- Conducted initial assessments including visual acuity testing and tonometry to prepare cases for review.
- Effectively maintained EMR systems to ensure easy access to vital patient details without compromising privacy.
- Collaborated in improving workflow efficiency by stabilizing patient flow amidst varying visit volumes.
- Transcribed physician notes on treatment plans and observation outcomes, aligning documentation practices with regulations.
- Participated in continuous education sessions to keep pace with regulatory changes and best practices in ophthalmic care.

Ophthalmic Assistant

January 2024 - May 2025

Ophthalmic Solutions

Peoria, IL

Managed clinical operations supporting ophthalmologists through various preliminary examinations. Responsibilities included recording crucial test results and effectively educating patients about procedures.

- Performed essential tests including keratometry and tonometry, enhancing diagnostic accuracy and illuminating further treatment objectives.
- Documented comprehensive family histories and consultations with relatives, strengthening case management efficacy.
- Facilitated timely patient appointments, managing an average of five encounters each hour to optimize clinic operations.
- Fostered profound knowledge regarding ocular procedures and medications to provide invaluable patient guidance.
- Worked closely with the healthcare staff for seamless service delivery, reinforcing patient-centered care approaches.

Intern, Ophthalmic Technician

August 2023 - December 2023

Springfield Community Hospital

Springfield, IL

Provided experiential learning in clinical settings, engaging with patients while gathering essential medical information. Focused on both accuracy and compassion during preliminary examinations.

- Engaged directly with new patients, articulating examination protocols clearly to reduce anxiety.
- Successfully conducted basic visual field tests, preparing results for physician reviews which influenced treatment decisions.
- Maintained operational readiness by guaranteeing equipment cleanliness and adhering to safety standards.
- Participated actively in training initiatives focused on boosting care delivery and compliance insights.
- Contributed significantly to scheduling and follow-up actions, minimizing wait times for subsequent appointments.
