SUMMARY

Dedicated warehouse professional with over 2 years in material handling and logistics. Successfully received, inspected, and unloaded incoming products while ensuring accuracy in quality and volume. Proficiently operated forklifts and managed inventory using advanced tracking systems. Proven ability to support production schedules by preparing shipments efficiently. Adapted quickly to diverse operational needs. Committed advocate for safety standards and clean work environments. Thrives in high-pressure settings, sustaining productivity without compromising service quality. Eager to bring expertise to deliver results and foster team success at Silverline Logistics.

EXPERIENCE

Warehouse Associate

Silverline Logistics 📅 June 2025 - Present 📍 Wichita, KS

Enhances overall warehouse operations, overseeing product journey from delivery through proper storage to shipping. Ensure precision in operating equipment, perform cycle counts, and maintain established safety standards.

- Efficiently performed documentation checks during receiving processes to ensure accurate quantities and compliance with specifications.
- Utilized sit-down and stand-up forklifts, directly impacting loading/unloading efficiency across various shifts.
- Conducted manual inventory audits, playing a key role in maintaining precise stock levels essential for optimal operation.
- Collaborated closely with teammates on shipping preparations, enhancing the overall workflow and meeting strict deadlines.
- Leveraged Microsoft Office Suite for data management, increasing reporting reliability while minimizing errors.
- Maintained an orderly workspace, resulting in improved safety outcomes and effective workflow improvements.

Material Handler

Golden Eagle Manufacturing 📅 January 2024 - May 2025 📍 Topeka, KS

Managed daily inventory processes as part of a bustling manufacturing environment, allowing timely deliveries and contributions to production goals.

- Performed tasks related to picking, packing, and routing materials effectively for assembly lines.
- Operated various material transfer devices such as pallet jacks, ensuring uninterrupted material flow.
- Helped oversee incoming supplies and maintained diligent checks against supplier orders for quality assurance.
- Provided feedback for continuous improvement in safety practices, actively participating in training and development programs.
- Addressed discrepancies in inventory promptly while involving cross-functional teams to promote closure.
- Impactfully reorganized storage strategies to boost accessibility, contributing to reduced time delays during stocking.
