LANGUAGES

SUMMARY

Detail-oriented warehouse professional with over 2 years of experience in product packing and labeling. Proven ability to operate RF scanners effectively and follow strict quality control protocols. Committed to maintaining safety and organization in fast-paced environments while supporting team objectives. Skilled in adapting to various roles within warehouse operations, ensuring efficient workflow and high standards of accuracy, including accurate packing and labeling according to specification which contributed greatly to inventory accuracy.

EXPERIENCE

Warehouse Picker Packer

Bright Logistics  January 2026 - Present  Flower Mound, TX

Responsibilities include guiding a team's efforts under the supervision of warehouse leadership. Each day brings unique challenges related to logistics and product handling.

- Collaborate closely with warehouse supervisor to streamline packing processes, enhancing overall efficiency across operations.
- Accurately pack and label products according to stringent specifications, achieving compliance with established quality standards.
- Utilize RF scanners to track inventory movements, significantly contributing to accurate stock management and availability.
- Maintain an organized and safe workspace, fully adhering to safety protocols and company policies that promote workplace order.
- Engage in relevant training sessions geared toward improving skills, expanding knowledge of key warehouse operations, and promoting teamwork.
- Play a critical role during inventory audits, ensuring meticulous record-keeping and timely updates on stock levels.

Warehouse Associate

Supply Chain Solutions  June 2025 - December 2025  Irving, TX

Functioned as a vital member of warehouse operations, frequently involved in tasks ranging from sorting to inventory upkeep to meet daily goals.

- Supported daily warehouse operations adeptly, including receiving, sorting, and systematically storing incoming products.
- Participated actively in regular training about packing and labeling techniques aimed at enhancing operational efficiencies.
- Operated RF scanning technology effectively, improving accuracy in inventory management and expediting order fulfillment.
- Ensured adherence to safety regulations, maintaining a clean working environment committed to optimal safety practices.
- Contributed influence positively to team meetings focused on improving productivity and implementing essential safety measures.
- Actively engaged in cross-training initiatives fostering versatile skill sets imperative for warehouse challenges.
