

Ivan Casey

Web Development Intern

📞 (214) 555-9876 ✉ ivan.casey@example.com 🔗 linkedin.com/in/ivancasey 📍 1234 Elm Street, Dallas, TX 75201

SUMMARY

Detail-oriented web developer with over 2 years of experience creating interactive web applications and visualizations. Proficient in HTML, CSS, and JavaScript while adept at diagnosing and resolving technical issues. Organized and capable of communicating complex concepts in a simple manner. Excited to contribute skills and insights in a collaborative environment that promotes innovation and growth.

EXPERIENCE

Web Development Intern

Digital Solutions Corp 📅 January 2026 - Present 📍 Austin, TX

Engaged in building and documenting web applications, enhancing user experience through collaboration and technical precision.

- Collaborate with senior developers on web tools that streamline organizational structures.
- Write clean HTML, CSS, and basic JavaScript for functional internal prototypes.
- Conduct comprehensive testing across various platforms to ensure usability and performance.
- Document code and procedures, fostering team clarity and understanding.

Junior Web Developer

Creative Web Services 📅 June 2024 - December 2025 📍 Houston, TX

Contributed to designing and maintaining websites focused on aesthetics and functionality, directly improving client satisfaction.

- Developed custom websites using best practices in UX/UI design for enhanced user engagement.
- Prepared detailed documentation to facilitate team knowledge sharing and project transitions.
- Troubleshoot site problems promptly, resulting in improved website uptime.
- Worked collaboratively with clients to gather requirements and translate them into effective online solutions.

Academic Project

University Project 📅 September 2023 - April 2024 📍 Austin, TX

Led a student team to create a web application aimed at optimizing campus information access and enhancing user interaction.

- Designed user-friendly web interfaces that improved navigation and accessibility.
- Integrated diverse data sets to support dynamic content generation.
- Implemented feedback loops with active testing to improve application performance.
- Documented the development process for presentation in front of peer Advisory Board.
