Hiring Manager
TradeJobsInc.
Dallas, TX

Dear Hiring Manager,

I am excited to apply for the Welder Apprentice position at TradeJobsInc. Working with metal ignites my passion, especially when I think about precise TIG welding and mastering blueprints. Crafting custom chambers and intricate components brings a unique thrill that fuels my ambition.

At Custom Welders LLC, I executed meticulous TIG welding practices based on drawn specifications. Collaborating with machinists sharpened my skills in alignment and cutting, enhancing our project efficiencies while upholding strict tolerances. This experience taught me the importance of teamwork.

During my time at Precision Fabrication Co., I encountered complex welding challenges that tested my abilities. I engaged with senior welders, learning the significance of order while developing my understanding of Argon gas welding techniques. This essential learning left me eager to embrace more hands-on experiences.

As I seek new challenges, I approach every project with diligence, ready to produce vacuum-tight welds in tricky spaces. My commitment to safety guides my actions, ensuring I foster a secure environment while achieving high-quality results. I recognize the importance of detail, especially regarding blueprints.

Entering this apprenticeship, I hope to enhance my skills further and contribute to team success at TradeJobsInc. Building metal structures represents not just my profession but my dedication to craftsmanship. I look forward to exploring opportunities that allow me to grow and excel.

Thank you for considering my application.

Sincerely,

Nikolai Kirby
