

STRENGTHS

- Attention to Detail
Careful monitoring of welding processes ensures results meet precise specifications. Peers commend consistent accuracy achieved.
- Collaboration
Regularly collaborates with machinists, fostering strong relationships that streamline processes and solve challenges effectively.
- Problem-Solving
Embraces challenges presented during projects, often finding innovative solutions that positively impact overall success.
- Adaptability
Quickly adjusts welding techniques based on client needs, resulting in greater satisfaction and more successful outcomes.
- Safety-Oriented
Vigilantly adheres to safety protocols, continually reinforcing workplace security and gaining supervisor trust as a reliable contributor.

SKILLS

- TIG Welding
Blueprint Interpretation
Metal Fabrication
Precision Measurement
Problem Solving
Safety Protocols
Welding Processes
Tool Calibration
Fusion Welding
Filler Rod Selection
Team Collaboration
Vacuum Welding
Operation Sequencing
Port Alignment
Quality Assurance

SUMMARY

Detail-oriented Welder Apprentice with hands-on experience in TIG welding and fabrication. Demonstrated ability to interpret blueprints and execute precision welding tasks with a focus on quality and safety. Proven skills in collaborating with machinists and maintaining strict tolerances. Effective in producing vacuum-tight welds even in challenging geometries, showcasing adaptability under unpredictable conditions. Strives for continuous improvement and learns quickly from feedback. Eager to contribute unique skillset to enhance team capabilities and exceed project expectations in a fast-paced environment.

EXPERIENCE

- Welder Apprentice
Custom Welders LLC March 2025 - Present Arlington, TX
Support welding operations at Custom Welders, focusing on fabricating custom metal components based on specifications. Collaborate effectively with machinists throughout projects, ensuring that all aspects of the job meet strict tolerance levels. Analyze blueprints to maintain high-quality standards during the fabrication process.
- Executed TIG welding of custom metal components based on detailed blueprints, adhering to specifications within tolerances of +/- .010.
- Collaborated with machinists on manual fabrication processes, including port alignment, cutting, and tuning, enhancing project efficiency.
- Produced vacuum-tight welds in complex geometries, demonstrating advanced skills in handling difficult welding scenarios.
- Maintained documentation of welding settings and processes, ensuring repeatability and quality control across projects.
- Troubleshoot welding issues by analyzing blueprints, proposing feasible solutions to improve workflow.
- Participated in safety training and adhered strictly to industry standards, promoting a safe working environment.

- TIG Welder Trainee
Precision Fabrication Co. June 2024 - February 2025 Dallas, TX
Completed rigorous training program focused on developing essential welding techniques and understanding fabrication processes. Received direct mentorship from experienced welders, honing practical skills for high-stakes production environments.
- Learned and applied Argon gas welding techniques under supervision, focusing on precision and detail in all tasks.
- Assisted in preparing and setting up equipment, calibrating tools for optimal performance.
- Engaged in hands-on training in fusion welding and filler rod selection for various materials.
- Worked closely with senior welders to grasp order of operations in complex welding tasks.
- Contributed to timely project completions while meeting quality standards.
- Maintained an organized workspace to enhance safety and efficiency.

LEADERSHIP & AWARDS

- AWS Certified Welder (2025)
OSHA 10-Hour Safety Training (2025)

EDUCATION

- Welding Certificate
Texas State Technical College GPA: 4.0 2026 Waco, TX
Coursework: Welding Techniques, Blueprint Reading, Safety Practices, Fabrication Processes

LANGUAGES

English Native

Spanish Intermediate

MY CAREER

- Welder Apprentice at Custom Welders LLC (1.4 Years)
- TIG Welder Trainee at Precision Fabrication Co. (8 Months)

CERTIFICATIONS

- AWS Certified Welder 📅 2025
- OSHA 10-Hour Safety Training 📅 2025

TECHNICAL SKILLS

- **Welding Technologies:** TIG Welding, MIG Welding, Flux-Cored Arc Welding
- **Fabrication Techniques:** Metal Fabrication, Welding Filler Materials, Assembly Techniques
- **Safety Standards:** OSHA Compliance, Industry Best Practices, Equipment Safety
- **Blueprint Reading:** Technical Drawings, CAD Software, Schematic Diagrams
- **Measurement Tools:** Calipers, Micrometers, Welding Gauges
- **Team Collaboration:** Interdepartmental Communication, Peer Reviews, Mentorship Programs
- **Equipment Maintenance:** Welding Equipment Setup, Tool Maintenance, Calibration Procedures
- **Welding Processes:** Arc Welding Techniques, Welding Joint Preparation, Surface Finishing
- **Quality Control:** Inspection Methods, Tolerance Levels, Documentation Practices
- **Training Skills:** Mentoring New Employees, Training Sessions, Skill Assessments

PROFESSIONAL AFFILIATIONS

- Member, American Welding Society
- Participant, Local Welding Competitions
