STRENGTHS

👤 Technical Leadership
I drive teams toward common goals through shared enthusiasm and expertise, seamlessly integrating diverse skill sets into powerful working units.

🗨️ Collaborative Mindset
My partnerships across departments facilitate creative solutions. Engaging with peers inspires me and solidifies our common objectives for tech excellence.

♥️ Adaptability
Facing changing technology landscapes invigorates my work. Adaptation fuels my strategies and enhances overall team responsiveness in fast-paced environments.

👨‍🎓 Mentorship Focus
I'm dedicated to nurturing emerging talent. Sharing knowledge uplifts not just individuals but also enriches our collective capability.

💡 Passion for Learning
Constantly seeking fresh knowledge keeps me relevant. Exploring new tech allows me to introduce innovative practices that benefit us all.

SKILLS

Java JavaScript Spring Boot

SQL RESTful APIs React

Angular Docker Kubernetes

AWS Python TypeScript

HTML/CSS Agile Practices

Microservices NoSQL Databases

SUMMARY

With over 13 years of experience in software engineering, I craft scalable applications that drive user engagement. In my current role as a Full Stack Lead Software Engineer, I lead a talented team to develop cloud-based solutions using Java and Spring Boot. I focus on delivering high-quality products while managing resources efficiently. My passion for mentorship fosters growth within my team as we embrace new technologies together. Continuous improvement drives our projects forward, and collaboration with cross-functional teams ensures alignment with business goals. As an industry leader, I thrive on staying ahead of tech trends.

EXPERIENCE

Full Stack Lead Software Engineer

Acme Corp 📅 January 2021 - Present 📍 Remote

I oversee the development of full stack applications aimed at enhancing customer engagement through streamlined services. Leading a diverse team, I encourage innovation with every project, focusing on efficient use of technology.

- Directed full stack development initiatives utilizing Java, Spring Boot, and modern JavaScript frameworks.
- Collaborated with product managers and UX designers to tailor applications that meet user requirements.
- Designed robust REST APIs offering seamless connectivity with various backend systems.
- Mentored junior developers on coding standards, ensuring quality across projects while promoting Agile methodologies.

Senior Software Engineer

XYZ Solutions 📅 June 2015 - December 2020 📍 Chicago, IL

In this position, I acted as a key resource in driving projects from conception to delivery. My technical leadership fostered collaboration between departments and laid the groundwork for innovative solutions.

- Architected microservices leveraging Docker and Kubernetes for container orchestration.
- Engaged with clients to analyze needs, proposing tailored software solutions enhancing productivity.
- Improved application performance through code reviews and optimization techniques.
- Spearheaded training sessions on emerging technologies reinforcing team skillsets.

Software Engineer

Tech Innovations 📅 March 2012 - May 2015 📍 Chicago, IL

My journey began here, developing my foundational skills and knowledge in software engineering. I participated actively in all project phases, growing both technically and personally as part of a pioneering group.

- Developed web applications using HTML, CSS, JavaScript, and SQL to deliver dynamic solutions.
- Assisted in migrating legacy systems to more efficient cloud platforms such as AWS.
- Participated in Agile sprints, fostering teamwork to tackle real-time challenges effectively.
- Contributed ideas resulting in workflow optimizations enhancing service delivery timelines.

PROJECTS

Cloud-Enabled Payment System 📅 December 2022

Led development of a comprehensive payment system that increased transaction efficiency by facilitating real-time processing using AWS tools and technologies.

Internal Dashboard for Customer Insights 📅 March 2023

Designed and implemented a dashboard enabling product managers to visualize customer data insights, influencing strategic decision-making processes.

MY CAREER

● Full Stack Lead Software Engineer at Acme Corp (5 Years)

● Senior Software Engineer at XYZ Solutions (5.5 Years)

● Software Engineer at Tech Innovations (3.2 Years)

LEADERSHIP & AWARDS

- Recognized as Employee of the Year for exceptional contributions towards project success and teamwork.
- Achieved Best Innovation Award for leading a major feature upgrade improving user interaction and satisfaction.

EDUCATION

Master's Degree in Computer Science

University of Illinois Chicago 🎓 GPA: 3.9 📅 2010 📍 Chicago, IL

Coursework: Data Structures, Algorithms, Web Development, Cloud Computing

Bachelor's Degree in Information Technology

University of Illinois Chicago 🎓 GPA: 3.7 📅 2008 📍 Chicago, IL

Coursework: Database Systems, Network Security, Software Engineering

CERTIFICATIONS

- AWS Certified Solutions Architect 📅 2021
- Certified Scrum Master 📅 2020

TECHNICAL SKILLS

- **Cloud Computing Platforms:** AWS, Azure, GCP
- **Programming Languages:** Java, JavaScript, Python, Go
- **Frontend Technologies:** HTML, CSS, React, Angular
- **Databases:** SQL, NoSQL
- **Development Frameworks:** Spring Boot, Express.js
- **Containerization Tools:** Docker, Kubernetes
- **Version Control:** Git
- **CI/CD Tools:** Jenkins, CircleCI
- **Testing Frameworks:** JUnit, Mockito
- **Microservices Architecture:** SOA, REST

PROFESSIONAL AFFILIATIONS

- Member of IEEE Computer Society, collaborating on software development best practices.
- Active participant in local hackathons, mentoring young engineers and sharing insights.
